Profile Summary

MERN Stack Developer with hands-on internship experience building and deploying production-grade REST APIs at Gamonix Esports. Proficient in Node.js, Express.js, React.js, and MongoDB with 2 live full-stack projects and 175+ DSA problems solved. Entering 3rd year of B.Tech CSE, actively seeking internship roles in full-stack development.

Technical Skills

Languages: Java, JavaScript (ES6+)

Backend: Node.js, Express.js, REST APIs, JWT, MVC, Middleware, bcrypt, CORS

Frontend: React.js, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS, Bootstrap

Database: MongoDB, Mongoose ODM, SQL

Tools: Git, GitHub, Postman, Render, Netlify, Jest

Education

B.Tech CSE, Brainware University

2024–2028 — CGPA: 8.39

XII (WBCHSE), Harishchandra Pur High School

2024 — 81.60%

Experience

Backend Intern | Gamonix Esports — Nov 2025 – Feb 2026:

- Built 18+ REST API endpoints for auth, player, and team modules using Node.js, Express.js, and Mongoose ODM.
- Secured a multi-role user system with JWT authentication, RBAC, and bcrypt password hashing.
- Modelled team–player relationships in MongoDB using Mongoose ODM and MVC architecture, reducing API response coupling across 3 modules.
- Tested all endpoints via Postman and deployed backend to Render with production environment configuration.

Projects

Swadzo | Live | [GitHub](#): *React.js · Node.js · Express.js · MongoDB · Stripe · JWT*

- Developed a full-stack food ordering platform with JWT auth, role-based admin authorization, and Stripe integration.
- Built REST APIs for cart, search, reviews, and order management using Mongoose ODM, including JWT-secured password reset via email.
- Deployed frontend on Netlify and backend on Render with environment variable management.

Vionex | Live | [GitHub](#): *React.js · Node.js · Express.js · MongoDB · WebRTC · Socket.io*

- Architected real-time P2P communication using WebRTC and Socket.io for low-latency signaling.
- Built backend services with Node.js, Express, and Mongoose ODM to manage user sessions and signaling workflows.
- Enabled real-time messaging via Socket.io and built responsive React UI with Context API for state management.

Certifications

Full Stack Web Development (MERN) — React, Node.js, Express.js, MongoDB
